

SOUTH EAST QUEENSLAND Fire and Biodiversity CONSORTIUM

Invites you to the

Spring Forum

Join us for the 2nd Fire and Biodiversity Forum for 2011.

Key Note Speaker:

Dr Alan York (University of Melbourne):
The Victorian Royal Bushfires Commission and its implications for biodiversity conservation in Victoria.

Other topics:

- The effects of fragmentation upon co-occurring threatened coastal heath plants in southern Queensland;
- fire and fungi;
- bushfire risk management;
- fire mapping and its implication for management of natural areas;
- update on the state planning policy and the statewide natural hazards risk assessment.

Field Trip— Beerwah wallum vegetation, and the compensatory habitat site at Sippy Downs.

Please wear suitable footwear and clothes for the field trip (we will be entering recent burnt country).

When: 3rd November 2011

Time: 9.30 am - 4.30 pm

Location: University of the Sunshine Coast, Sippy Downs Drive, Sippy Downs - Innovation Centre (IC) Auditorium Hall 1

Please RSVP by **20th October 2011**
For further details contact Craig Welden :
