## Invitation

### South East Queensland Fire and Biodiversity Consortium

**Help us launch Phase 4 of the South East Queensland (SEQ) Fire and Biodiversity Consortium, with our first full Consortium meeting.**

**Date:** Tuesday 9 November 2010.

**Time:** 10am - 3:30pm with morning tea and lunch provided.

**Location:** *Redlands IndigiScapes Centre* - 17 Runnymede Rd, Capalaba.

**Keynote Speaker:** Waminda Parker, Project Manager of the NSW Nature Conservation Council “Hotspots Fire Project”. Other speaker topics include community fire management planning, the Victorian Bushfire Royal Commission and fire regimes and small mammal assemblages.

*Following an extensive process to seek a new host for the SEQ Fire and Biodiversity Consortium, a partnership opportunity was identified with SEQ Catchments, the regional natural resource management body for SEQ. This partnership provides excellent opportunities for ongoing engagement with private landholders, public land managers and academic institutions in fire management and fire ecology research. Come join us as we discuss the new arrangements and listen to an array of interesting speakers.*

**RSVP:** By **26 October** to Dr Samantha Lloyd on the details above (please include dietary requirements).
