

# SOUTH EAST QUEENSLAND Fire and Biodiversity CONSORTIUM

Invites you to the

## Spring Forum

Join us for our final Fire and Biodiversity Forum for 2012.

**Key Note Speaker: Dr Liubov Volkova;**  
**Department of Forest and Ecosystem Science University of Melbourne: Forest Carbon Balance and Emission Management.**

Dr Liubov Volkova is a research fellow at the University of Melbourne working on the impacts of fuel reduction burning on carbon losses in eucalypt forests across Australia including SE Queensland.

The research is part of the *Fire in the Landscape project* within the Bushfire CRC *Managing the Threat program* and is supported here in SEQ by the Queensland Parks and Wildlife Service.

**Other Topics**— updates on fire research in SEQ; SEQ Roadside Fire Management Project; CfoC Eastern Bristle Bird Project; Fire Weather Update; Late Quaternary vegetation and fire history from the Moon Point Patterned Fen, Fraser Island; Pre and Post European settlement fire history and environmental impacts from the Atherton Tableland region.

**Field Trip**— Power lines, Fire and Erosion—Grandchester site. SEQ Catchments, Power link Queensland and The University of Queensland.

Please RSVP by **2nd November 2012** by using your Event Bright invitation.

Dr Volkova conducting some field Research.

**When: 14 November 2012**

**Time: 9.00 am - 4.00 pm**

**Location:** Laidley Cultural Centre, Laidley- Plainland Road, Laidley North.

### How to get there:

**CAR:** Free Parking is available at the Centre. Participants are encouraged to car pool.

**Train:** [Translink Journey Planner](#). Please note the Bus will not stop at the Cultural Centre. Please let Craig know if you are traveling via this option and require a pick up from Laidley town centre.

A full program will be coming shortly.
